

Утвърдил:.....
Директор: инж. Снежана Връцова

**Конспект за оформяне на годишна оценка на ученик
в самостоятелна форма на обучение по ЧЕП – Английски език
специалност Машини и съоръжения за заваряване (МСЗ) за 11 клас**

1. Mechanical engineering - basic terms
2. Mechanical engineering area of application basic terms
3. Economics - function and methods
4. Enterprise and entrepreneurs
5. Small business- base of modern economics
6. Market and market factors
7. Marketing strategy and brands
8. Company finance
9. The language of trends
10. Healthy and safe workplace terms
11. Labor safety international and Bulgarian organisations
12. Professional and healthy risks in the different labor activities
13. Firefighting safety regulations
14. First measures after an accident
15. Main drafts requirements
16. Geometric constructions

1. Views, sections, projection
18. Details drafts
19. Threads, joints, blanks,
20. Preparing technical documentation according to BS standards and ISO standards
21. Detached elements drafts
22. Non-detachable joints: welded joints, rivet joints
23. Glued joints, soldered joints
24. Detachable joints
25. Threaded connections – bolted connections, screw connections, studs
26. Screw gears, nut gears
27. Shaft-hub detachable joints
28. Pin joints, slotted joints, conical joints
29. Elements of the rolling motion – axles, shafts, bearings
30. Connectors – hard connectors, elastic connectors
31. Mechanical gears – transmission belts, chain gears
32. Construction materials – alloys, steels, cast irons
33. Construction steels, instrument steels
34. Steels for special purpose
35. Non-ferrous metals and alloys
36. Heavy non-ferrous metals and alloys
37. Plastic and other materials of industrial importance
38. Blanks made by welding
39. Blanks made by semi-mechanical welding
40. Blanks made by flux-cored welding
41. Blanks made by welding in protective gas atmosphere
42. Plastic blanks made by welding

43. Blanks made by thermal cutting
44. Making blanks plastic deformation
45. Roller machines
46. Blanks made by cold pulling
47. Blanks made by list or volume stamping
48. Blanks made by pressing
49. Plastic blanks made by extrusion
50. Plastic blanks made by forming
